

SONGWON adjusts global price for Polymer Stabilizers and Coatings

Ulsan, South Korea – March 11, 2026 – Songwon Industrial Co., Ltd. today announced a global price increase adjustment for its Polymer Stabilizers and Coatings product ranges. Depending on the product and region, the increase will be 12-20% and become effective April 15, 2026, or as contracts allow.

This price adjustment is necessary to offset significant increases in key raw material costs, continued pressure on operating margins and escalating freight and logistics costs. It will be implemented in accordance with applicable contractual obligations and local regulations.

SONGWON will continue to work closely with its customers to implement these changes and remains committed to maintaining reliable supply and service during this period of increased market volatility.

About Songwon Industrial Co., Ltd.

A leader in the development, production and supply of specialty chemicals, SONGWON's products touch your life every day, everywhere. Since 1965, we've been driving innovation, partnering for progress and paving the way for a better more sustainable tomorrow with 360° customized solutions.
