

## SONGWON awarded its 6<sup>th</sup> EcoVadis Gold

- **SONGWON achieves the EcoVadis Gold rating for the 6<sup>th</sup> time**
- **With 84/100 points, SONGWON ranks in the top 5% of companies assessed worldwide**

**Ulsan, South Korea – December 15, 2025** – Songwon Industrial Co., Ltd., one of the world's largest manufacturers of polymer stabilizers and a key global player in specialty chemicals, announced today that it has achieved a Gold rating in the EcoVadis 2025 sustainability assessment. This marks the 6<sup>th</sup> time the organization has received Gold for its sustainability performance.

With a gold medal score of 84/100, SONGWON ranks in the top 5% of companies assessed globally, demonstrating its strong sustainability performance across 4 key areas: Environment, Labor & Human Rights, Ethics and Sustainable Procurement. Additionally, 84/100 points places the organization in the 98<sup>th</sup> percentile worldwide and also reflects the significant performance improvements in the areas of ethics and sustainable procurement.

“Receiving the Gold medal again is a strong recognition of SONGWON's continued commitment to consistently high sustainability performance. While our Platinum rating last year was a milestone for us, EcoVadis' more stringent assessment criteria this year have raised the bar for everyone and we fully support this evolution,” said Thomas Schmutz, Leader Global Technology, Regulatory Affairs & Sustainability. “These higher benchmarks serve to motivate all of us to keep pushing forward. Our rating this year shows that we are not only maintaining but actively strengthening our sustainability practices and we are incredibly proud to be leading the way on sustainable business practices within our sector.

The achievement also highlights the dedication of SONGWON's global team, who play a vital role in advancing our sustainability goals and whose daily efforts drive our progress.”

EcoVadis is one of the leading industry-reference platforms for evaluating how organizations integrate sustainability into their business and management systems. Its assessment network covers more than 150,000 companies across 250 industries in 185 countries, using a methodology based on international standards such as the UN Global Compact, ILO conventions, GRI and ISO 26000. Through its assessments, organizations receive evidence-based insights and a clear roadmap for continuous improvement. This fully aligns with SONGWON's long-term commitment to continuous improvement in all aspects of sustainability.
