

It's all about **the chemistry™**

*„As CEO of SONGWON,
my role is to enable people
to excel. The empowerment
and self-awareness of our
employees is the foundation
of our success.“*

Maurizio Butti,

*Chief Executive Officer
& Executive Board Member*

Creating value for customer and consumer

At SONGWON, we are passionate about people. Our committed teams work together with customers to drive new opportunities and set new trends that add value throughout the chain, from manufacturer to end user.

Our clients benefit from a global framework combined with readily accessible local organizations, including customer service offices and technical support centers in numerous different countries. Wherever they are in the world, our customers can reach us easily and count on our availability at all times.

Providing the right solution at the right time

Long-standing expertise and ongoing research in additives for plastics, lubricants and fuels, coatings, electronics and more enable us to help our customers develop tailor-made solutions that meet their individual requirements and those of the end user.

Combining innovation and sustainability

Responsibility towards people and the environment is a hallmark of SONGWON. Optimizing the sustainability and environmental acceptability of products and procedures is a priority in everything we do.

Since the founding of SONGWON in 1965, we have always been committed to adding value – value for our customers, value for our people, value for society and value for future generations. SONGWON's symbol was built on this.

The interconnected ring formation symbolizes unity, our links to customers and the power of working together to create innovative solutions that enhance human life. It also highlights the connected, multidisciplinary nature of our organization, as well as SONGWON's team of global talents with multiple perspectives driven by an entrepreneurial spirit and inspired by a common goal.

Symbolizing a promising and prosperous life, the ellipse indicates a sense of movement, our expansion and SONGWON's continual pursuit of success and excellence in research and development.

The color blue is associated with integrity, stability and strength and we feel it truly captures the essence of our company. Traditionally, it has also become a key color for the fields of science, technology and engineering. The symbol's shape is similar to a chemical structure and some people even say it looks like a pine tree from above. However, for everyone at SONGWON it represents everything we value, what we stand for and who we are.

SONGWON stands for

Passion

SONGWON's team of committed chemical professionals is dedicated to advancing the interests of customers and the industry.

Entrepreneurship

SONGWON is a global leader in chemical specialties that has retained the spirit of its early years: a lean, innovative and flexible organization that seeks and drives new opportunities and sets new trends.

Accessibility

SONGWON people act as extended teams for their clients: they are readily available and always within reach.

Credibility

SONGWON's past, people, products and processes bear the hallmark of reliability, trust and confidence in the future.

Expertise

SONGWON offers a specialty chemicals knowhow pool to facilitate and accelerate business and industry growth in a sustainable and environmentally responsible manner.
