Expertise

Our highly-qualified, talented global team, leverages its extensive experience and profound innovative strength to focus on industry needs and provide customers with long-term sustainable value.

Founded in 1965, SONGWON is headquartered in Ulsan, South Korea and operates group companies all over the world.

Since it launched its first product, a PVC stabilizer, more than 50 years ago, SONGWON - formerly the only plastic additives manufacturer in Korea - has grown to become the second largest producer of polymer stabilizers world-

wide and a key player in the specialty chemicals business. Today, SONGWON offers the combined benefits of a global framework and readily accessible local organizations.

This has been achieved thanks to our committed teams that constantly seek and drive new opportunities and set new trends, in order to facilitate and accelerate sound and sustainable growth.

Customer specific need

Combining innovation and sustainability

Our mission is to be the supplier of choice for all our product lines by delivering unique expertise, outstanding value, reliable service and innovation all over the world.

To ensure manufacturing excellence and reliability of supply, SONGWON operates a structure of backward integration and continuously upgrades its large-scale plants with the latest technologies.

Research and development are a priority for SONGWON, which focuses on process improvement, new product development and regulatory affairs.

Process improvement is key to maintaining SONGWON's competitive and best-in-class quality position. By streamlining R & D processes, SONGWON saves time, and can better leverage existing knowledge and expertise.

New product development is mainly focused on developing innovative specialty chemical products for broad industrial applications.

Regulatory affairs ensures that SONGWON's products are compliant with all known chemical regulations, both existing and emerging, and enables the creation of relevant documents including MSDS (Material Safety Data Sheet), Labels and RDS (Regulatory Data Sheet) for SONGWON's products.

Optimizing the sustainability and the environmental acceptability of our products and processes is a central focus of all our R&D activities.

At SONGWON, Corporate Social Responsibility (CSR) is an integral part of our business. CSR underpins our strategy and helps us to manage our impact on society, and it contributes towards a more sustainable way of doing business.

What does CSR mean?

Corporate Social Responsibility (CSR) means including economic, social and ecological considerations in the core activity areas of our company.

It ensures that we consciously consider the direct and indirect impacts of our operations on all SONGWON's stakeholders including our customers, suppliers, workforce and the local community.

Our Social Culture

We continually work to improve our performance and the consistent quality of our products, as well as how we do business, how we treat our people, the communities we serve and the environment around us.

This commitment is rooted in SONGWON's culture and has been a common theme throughout our history. In short, we firmly believe that performance and responsibility should go hand in hand.
